Storage, Transport, Organization & Lab Specialty Product Guide

WHO WE ARE

We are Independent salespeople
selling for multiple companies.

Specialty markets include:

- Material handling products
- Labs, Cleanrooms
& Pharmaceutical
- Vivarium equipment
- Facility decontamination
- Storage space planning
- Federal government sales
- Electronics Manufacturing
- Installation of products

WHAT WE DO

We represent **multiple**
and **complementary**
non-competitive
products and offer multiple
problem solutions.

We work hard to earn
reputations as partners and
trusted problem solvers.

Quality products and
innovative ideas to increase
your productivity and profit.

VALUE WE ADD

**You spend far less time
working with a
manufacturers' rep than with
multiple direct salespeople.**

Manufacturers' reps create
long-lasting relationships.
Direct salespeople are always
on the move as they are
promoted to bigger territories
or new responsibilities.

People buy from people they
know and trust.

InterMetro Industries Corporation

ProEx
SERVICES

MANUFACTURERS

TOMI Environmental Solutions

ProEx
SERVICES

MANUFACTURERS
REPRESENTATIVE

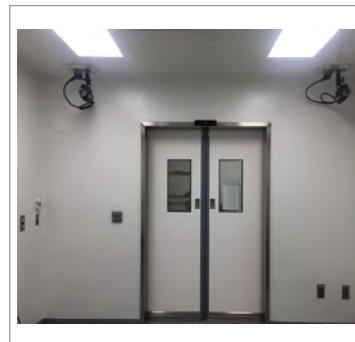

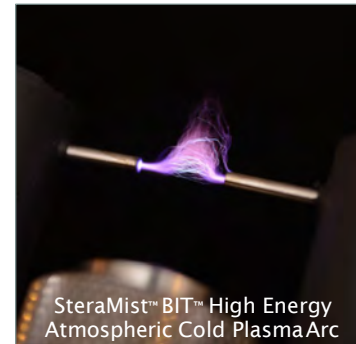

Innovating for a safer world: TOMI™ Environmental Solutions, Inc is a global decontamination and infectious disease control company, providing environmental solutions for indoor/outdoor surface disinfection through manufacturing, sales and licensing of our premier product Steramist™ BIT™

Fast acting biological deactivation of C. diff spores, MRSA, Pseudomonas, and other harmful pathogens*. No Wipe, no rinse, leaves no residues: quick room turnover.

Revolutionary Technology & Unrivalled Results: Developed by the Defense Advanced Research Projects Agency (DARPA) to kill and neutralize bacteria spores and viruses and aggressively break the double bonds in biological weaponized agents and chemical warfare agents.

The Power of Cold Plasma Activation: The fine mist, Ionized Hydrogen Peroxide (IHP), occurs when BIT™ Solution passes through the activated cold plasma arc and becomes ionized, thus becoming the hydroxyl radical.

- Sale of the product and/or the services to decontaminate your area.
- Quicker and more efficient than vaporized HP for pharmaceutical, vivariums and research labs.
- Ambulances, helicopters, planes and public areas.
- Fast cycle times minimizing downtime
- Superior six log efficacy (99.9999) reduction of pathogens*
- Excellent materials compatibility, non-corrosive.

* Binary Ionization Technology® (BIT) is an EPA registered combination solution and application technology for use as a hospital-healthcare disinfectant (EPA registration # 90150-2). State registration pending.

Custom Stainless Fabrication

ProEx partners with several custom fabricators to provide solutions on a custom basis for stainless steel applications.

- Carts
- Tables
- Animal transport
- Wall shelving
- Mobile casecarts
- Custom 316

Made to order cabinetry & tables

Animal Care Systems

Our Mission: To provide innovative rodent caging systems that save energy and protect animals, their caretakers and the environment.

Established in 1997, Animal Care Systems is the first caging systems company in the industry founded by a veterinarian with experience in directing AAALAC-accredited animal care and use programs. Dr. Germain Rivard's experience with animal facility planning, design and management produced the construction of the first Gene Transfer Technologies Training Center and Rodent Barrier Facility for genetically altered mouse colonies.

Animal Care Systems manufactures the original motor-free carousel design rodent caging system.

- Optimice
- Optirat Gen II
- No motors
- No Blowers
- Low maintenance
- Low-stress housing
- High Density
- Eliminates Odors
- Complete biocontainment
